item	parts	material
1	body	Zinc
2	bonnet	Zinc
3	ball	Q235iron
4	Ball seat	ABS
5	Stem	A3 iron
6	O-ring	NBR
7	Presssure cap	iron
8	handle	A3 iron
9	Nut	A3 iron

- Installation Notes:**
- 1) Apply thread seal tape onto the thread. Do not use Hemp.
 - 2) Screw the Valve onto the thread and hand tighten.
 - 3) Tighten the valve by approximately 3/4 to 2 turns.
 - 4) Do Not Overtighten.
 - 5) Apply Thread seal tape to the other pipe thread to be connected to the valve.
 - 6) Use a spanner to hold the valve (on the closest side to the thread being tightened) and a wrench to tighten the pipe.
 - 7) Tighten the valve by approximately 3/4 to 2 turns.
 - 8) Do Not Overtighten.
 - 9) The valve may be tightened further should leaks from the threads be experienced.
 - 10) Do Not Overtighten.

Note: These valves are light pattern valves and ARE NOT DESIGNED for critical installations where damage or loss in any form could occur.

They are intended for short term outdoor use with non-frequent open/close cycles .

Where freezing occurs, standard practice of lagging the ball valves is required.

No Liability will be accepted for any failures except for replacement of these valves should the valve prove to be defective under normal operating condtions.

6 Month Warranty.

All Specifications are subject to change without notice
